# Special Generic Drug Pricing Program

1. The Program applies only to certain generic drugs at commonly prescribed dosages. Higher dosages cost more. You may obtain a list of generic drugs and dosages covered under the Program at Monroe Pharmacy at 845-395-0909. The Retail Drug List may change and also may vary. Not all formulations of a drug (for example, enteric-coated, extended or timed release formulations) are covered under the Program. The program pricing is not available when a covered drug is dispensed as part of any compounding prescription.
2. Under the Program, \$3 is the price for up to a 30-day supply of certain covered generic drugs at commonly prescribed dosages (the "\$3 Retail Program"). \$10 is the price of a 90-day supply of certain covered generic drugs at commonly prescribed dosages (the "\$10 Retail Program"). Not all drugs covered by the \$3 Retail Program are covered by the \$10 Program. Prices for quantities between a 30-day supply and a 90-day supply of drugs covered by both the \$3 Retail Program and \$10 Retail Program are prorated based on the \$10 Program price, but will not exceed \$10. Prices for quantities greater than a 90-day supply of drugs covered by the \$10 Retail Program are prorated based on the \$10 Program price. Prorated pricing is not available under the Program for prepackaged drugs.
3. Program pricing may be limited to select manufacturers of a covered drug and is available as long as supplies from such manufacturers are in stock at the dispensing pharmacy.
4. You may pay less or more than the Program price, depending on the terms of your health plan. Prescriber permission may be required to change a 30-day prescription to a 90-day prescription. Certain plans, including government-funded programs, may not cover a 90-day supply.
5. These Program Details are subject to change without advance notice. Changes to these Program Details may be made only in writing. Monroe pharmacy creates the program idea and this it's proprietary assets.
